Panasonic B6 Series HD-ready LED - Direct-lit LED delivering amazing brightness, clarity and colour detail

Panasonic B6 Series TVs feature a highly efficient LED-backlit IPS LCD panel for vibrant image quality, even when viewed at an angle.

Panasonic B6 Series HD-ready LED televisions combine outstanding image quality with unbeatable value for money. These good-looking LED TVs are available in 32" (81cm), 39" (99cm), 42" (107cm) and 50" (127cm) screen sizes, ensuring there's a TV perfectly proportioned for every room in the house, and feature Freeview HD, integrated USB media playback plus a high quality V-Audio sound system.

Slim design and energy efficient

All B6 Series LED TVs are highly energy efficient, thanks to new panel technology which reduces power consumption without harming image quality.

The contemporary slim design of the B6 Series is easy to accommodate, whatever your décor. The TVs also feature advanced LED-backlit design which makes them an energy efficient choice for living rooms or bedrooms. The slim design allows them to fit into most rooms and the image quality is superb, which makes them a great choice for a variety of settings. The integrated mode allows for a wide range of picture settings.

Freeview HD tuner

An integrated Freeview HD tuner offers over 100 TV and radio services, including four HD channels, without the need for any additional subscriptions or service contracts.

Superior image quality

Panasonic B6 Series LED TVs use high-quality IPS LCD panels & Freeview HD tuners. B6 Series LED TVs deliver a high contrast image with vivid colour reproduction. The HD ready IPS panel guarantees

rich, contrasty pictures with a 178 degree viewing angle.

Clear stereo audio

Delivering clear dynamic stereo sound, your B6 Series LED TV features powerful 2 X 10W full range speakers. Panasonic V-audio processing provides an enlarged stereo soundstage.

HDMI inputs

With two HDMI inputs, B6 Series LED TVs can be easily connected to other HD home entertainment equipment, including set top boxes and Blu-ray/DVD disc players. One HDMI connection is ARC (Audio Return Channel) enabled, making it simple to connect to a soundbar or surround sound system.

Additional connectivity

In addition to twin HDMI inputs, B6 Series LED TVs also feature an optical digital audio output, which can be used with compatible surround sound audio systems, along with SCART and component video inputs, plus a CI common Interface slot. If you have music, video or JPEG files you want to enjoy on the big screen, there's a USB v2.0 media reader too, compatible with all popular file formats.

VIERA Link

B6 Series LED TVs provide easy-to-use system control. You can command various HDMI devices connected to your TV using the standard Panasonic IR TV control, all thanks to VIERA Link.
