TRIBUTE 670 PANEL VAN, Compact enough for everyday use, the 670 is perfect if you just feel like carrying on driving and escaping for a few days. There are two forward facing additional travel seats as standard, which, when combined with the collapsible and extendable dining table and the cab's swivelling Captain's chairs, create a comfortable dining area for four. The galley kitchen is well appointed, with hot and cold running water, a two burner gas hob, full sized oven/grill and large refrigerator with freezer compartment. The wet room style washroom includes a 12v flushable toilet, sink, large mirror with LED lighting above, cupboard and a shower, featuring domestic style controls and full surround shower curtain. The clever sink design allows for it to be slid to the side to create more shower space. In the rear, the two long, side-facing bench seats easily pull together to make up a full width double bed. A handy fold away table provides extra dining space or an area for games night! When in transit, the roomy central aisle provides additional storage space which is accessible via the rear double doors.
