

Citroen Relay 2.5D 2001 Self Converted Minibus to Camper Van Solar PanelsBattery V

Location **London, London**
<https://www.freeadsz.co.uk/x-460577-z>

Hi!!

Here is our Jackie The Van for sale!

We've done 4000 miles on it this year and now we are moving to different shores!

It's the 2.5 Non Turbo Diesel engine with 5 speed manual gearbox. No warning lights are displaying on dashboard. Engine, gearbox, clutch and brakes work well.

It's a long wheel base high roof van that was a minibus now converted to Camper Van

I converted this van myself, using the following:

- double foil bubble insulation
- plastic wool insulation
- extra layer of double foil insulation
- wood palettes to cover the walls
- sturdy floor made out of plywood tables
- 2x 12v 100watts Solar Panels
- 1x AGM 100Ah Leisure Battery to keep everything running

- 1x 1500W (Peak 3000W) Modified Sine Wave Power Inverter - 12v to 230v

Download light film following the windows
near Remote Control with LED light

Part # 44000-144.31 Triplex 50A monitor + wide range
Solar Panel Charge Controller

---	---

What is extra:

- I'm including what was left of the tint film for the buyer to reuse if wanted on the windows
- a new CITROEN RELAY 2.5 DIESEL EXHAUST SILENCER REAR TWIN BACK BOXES (worth £70) (you still need to purchase an approved CATALYTIC CONVERTER)
- European Travel Kit (Worth £20)
- 1X Warning Triangle
- 1X Universal Bulb Kit
- 1x GB Sticker
- 2x High Visibility Vests
- 1x Twin Pack NF Approved Breathalyser
- 1x Small First Aid
- 1x Beam Deflector , Headlamp converter
- 1x Free Carry Bag Blue White Handles / Colour may vary
- 1x Free Euro Motoring guide Sticker is Easy to Attach and Remove from your Vehicle
- Portable battery powered Outdoor Shower (this thing is amazing, although I think is to powerful sometimes)
- NEW Tyre Sealant

Known problems with the van:

- the battery is discharging faster than normal
- the CAT needs to be replaced, but I already include the rest of the exhaust with the van
- the side rear window close to the sliding door needs to be fixed and put in place (new rubbers most likely)
- it has a crack in the front window the size of a £1 coin
- small tear in driver's seat
- some paint has been peeled around drivers door near handle and near the roofline
- odd other small marks here and there due to use
- tow bar fitted but no ball or wiring to it
- no spare wheel
- very little service history known as it was maintained in house by the minibus company
- the door panels need pins to keep them in place as the last were broken to insulate (never fixed this)

Besides that she needs a full service.

She has an L Shaped Sofa that converts to a Double Bed. No mattress thought, as I always enjoyed

sleeping on harder floors than matresses (better for the back!)

Included V5 and last MOT.

Collection from N17 8AA.
No returns!

It was a pleasure owning and driving this Van around South England for the past 6 months, plus the pleasure of converting was incredible!!

I wish the new owner a lot of millage and pleasure with it as I did as a travel photographer!!

Make me an offer!!

Best of all,
Jay ;
