With your website getting more and more traffic, it is time to move from shared to VPS hosting. Not only will you have your own space on the server but also more resources at your disposal. Your website will load faster and your visitors will be happy. If this sounds like a good option for you, then you need to choose the right web hosting provider. We have researched and compiled a chart that compares all major VPS hosting companies by price, CPU, bandwidth etc. Read the review at: <http://bloggerkhan.com/vps-hosting-vps-servers/185> Thank you. ;
