I got given the oven a couple of yrs ago when we lived in a different property. We checked that it worked by plugging it in our gas and It worked perfectly but we just couldn't fit it in our kitchen. Just moved and its now taking up a large part of our new dining room. Need it gone by Xmas. We cant make any alterations to our new property so cannot use it and don't want it hanging around for that long as we have only just moved in. it is free to collector. going to need at least 2 strong men. Its bloody heavy. its also going to need all new feet/legs. A good clean and an ignition button. Although the ignition does work. The button is missing. please email if any questions click to
