

Toylander Series 1 Land Rover electric child039s car. (2,750 GBP)

Location **South East, East Sussex**
<https://www.freeadsz.co.uk/x-461537-z>

Constructed by myself to a very high standard using only new materials and components. This is a Land Rover in miniature! It has forward & reverse, speed control, brakes, lights, horn & parking brake. The windscreen & tailgate fold down as does the seat back so that an adult can have a play! There is also a bonnet lock to keep out inquisitive little fingers! It is driven by 2 12volt motors on the rear wheels and is powered by twin 12volt batteries. It has sufficient power to carry up to 1 adult and 3 children and will run for between 4 to 7 hours (depending on terrain) on a single charge and comes with a new 12/24volt battery charger. In use, it is completely silent (apart from the squeals of delight!) It is finished in authentic Land Rover Bronze Green cellulose, is brand new & unused. With a little maintenance and care it will give some lucky children years of fun & pleasure (as well as being the envy of their!)
