Location **North, Lancashire**

Epiphone Sunburst red Les Paul style guitar and Fender 15 watt Amp. Both are being sold as a pair. The Epiphone rear neck plate says it was made in Indonesia for Epiphone USA, it is good condition. Some minor marks at the back of the guitars body. Both pick-ups work and it has a great sound through the Fender 15 watt amp, which can accept 2 x 1 pin Phono inputs plugs from a audio device to use backing tracks etc. It would be an ideal present for any occasion. Sold as seen, can be shown to be working. No reasonable offer refused. Will only be advertised for as short while, as I will sell else where. I need the room. Pick up only, any questions please feel free to ask. ;
