We are changing our kitchen, which has served us well and is in great condition. It's a country oak style (£10k - 20 years ago), solid oak doors and rigid carcasses and leaded glass dresser display cabinets and a 900mm gas hob. There is also a 900mm electric oven to go with it. Everything in the recent photos are included, except for the American fridge freezer, which we would like to sell separately in due course for about £950.

If you are planning another kitchen and oak is what you are after, you might like to come over and see what we have and have a chat. You could pick up a bargain and with new work tops it would enable a new layout and invigorate the whole thing. It's all here ready to go. You just need a van. ;
