Energy healing is a safe, painless, non-invasive method of healing that works through clearing and balancing the chakras and the human bio field. When we are feeling healthy and happy, and that life is good, our energy flows freely which helps us maintain health and well-being. Imbalances, or blockages, in our energy body can be caused through physical or emotional trauma, or over a period of time through established mental patterns of stress, anxiety and fear. It is based on an ancient philosophy that poor health is caused by a disturbance to the flow of energy within and around the body. Bio Energy practitioners are trained to locate blockages in the Energy Field and to restore the natural.
