Here is my HPI Trophy 3.5 Big Block 1/8th buggy, it has barely had any use and is in great condition. Only been used a handful of times in fact engine could still do with a few more tanks of fuel to run it in. It works great and is extremely fast. This car is also 4 wheel drive. Car comes with everything you need, this includes 2.4GHZ transmitter, glow plug + charger, some spares, original manual and booklets with box and even some fuel (if collecting as fuel cannot be posted) so you can start using it straight away. The body shell is in perfect condition and the car can also be seen running. Sold as seen / no returns due to the nature of the hobby. Can also post if buyer pays.
