

RC Nitro 18th Buggy Car with Controller (50 GBP)

Location

West Midlands, West Midlands

<https://www.freeadsz.co.uk/x-463070-z>

RC Nitro 1/8th Buggy / Car with Controller. Spares or Repairs. Engine is turning over with good compression. From what I can see it needs a glow plug, receiver, battery cradle and steering connecting up to servo. The car doesn't come with a shell but comes with controller. Everything else on the car seems to be ok, as mentioned the engine does have good compression and has a rotostart system on the back of the engine. All the suspension seems good, just don't have the time to fix it up myself. Can also post if buyer pays.
