Introducing D3 Publisher's open world love-adventure and photography game! As you arrive on the island of Yumegashima for your three month stint at Natsuiro High School you'll join a full cast of characters, including the all-female journalism club that have enlisted you as their new photographer!

Players can freely explore their new island home by choosing between over 150 quests to carry out, interacting with the 300 inhabitants, fishing for strange items, and of course taking pictures of whatever, or whomever, inspires!
