My 4 month old puppy is looking for her special home....
 Due to her and mum playing ruff and tumble...
 The puppy has got a slight tendon trouble with her front leg but this will heal properly with going walks and swimming (in a bath)
 I have had this all checked out by a vet ..
 Partially house trained will go outside or (on pee pads if no access to a garden).....upto date with all her vaccines and flea/worm ... has been microchipped...

She has learnt sit paw and down she loves to be cuddled and played with

This has been a very hard decision for me to make so PLZ no time
