

DiscoG - Coding Academy (17 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-466257-z>

The Young Coder's Programme are for children aged between 9 - 14 years, designed to introduce children to the world of computer programming. This beginner's course takes children who are unfamiliar with, or have a limited knowledge of programming and teaches them the basics.

Children will use the Raspberry Pi 3, a credit-card size computer to learn the Python Programming language. In addition to learning coding, they will also be learning strategies for solving problems, designing projects, and communicating ideas.

These transferable skills can be used in the future to learn another programming language.

Other Coders Programmes are also available to teach older children from GCSE, A-Level Computer programming and adults who wants to learn programming.

Please see www.discogcodingacademy.com for further.

DiscoG Coding Academy

Programming Tuition Which Follows The New National Curriculum.

Learn to code. Code to learn.

BOOK
your **FREE**
Session or
Assessment*
NOW!

* The assessment is designed to evaluate the level of knowledge and skills your child possesses through a bespoke set of exercises specific to each child.

Our assessments and sessions take place at the following locations:
Bright Young Things Tuition Centre
 219 Kenton Lane, Harrow, HA3 8RP
