Discounted Precious Metal and Gemstone Jewelry: We are a Company dedicated to the retail sale of Gemstone & Precious Metal jewelry without the normal retail price hype. Our prices are based on the actual cost of the product, excluding all the middle men the finished product would normally pass through. Who would normally add their commission on to the price before passing it on. For example: Production cost plus profit. Distributor cost plus profit. Wholesaler cost plus profit. And last but not least, the retailer cost plus a massive hype in price to cover all overheads. You will find some great buys on in our shop, therefore all items are listed randomly to encourage browsing. <http://www.discountgems.co>
