We have for sale 3 Beautiful British Shorthair Kittens, 1 Blue Boy, 1 Blue Girl, 1 Black/Smoke Boy. Mum is our full pedigree Black British Shorthair and Dad is our full Blue British Shorthair and can be seen as they are our family pets, all kittens have been wormed regularly using panacur paste and have had a flea treatment with frontline spray. All kittens are eating both wet & dry food, fully litter trained and love to be cuddled, they are used to all household noises including our other pets and grandchildren, they are ready for their forever homes now, but will keep until xmas, but these kittens are not a xmas present just for xmas they are for life. they have not had their inoculations yet as some new owners want them done and some don't, also some vets do different vaccinations. We have also been advised with our vet that mum has had cat flu, but is ok now and this is the reason for the low price. these kittens are just like the mcvities.
