This is a brand new sofa purchased less than 4 months ago from DFS at a price of £1119.00. We are taking some money off the full asking price as it has obviously been used but is still in excellent shape. The sofa is in practically brand new condition as can be seen from the photos as we have had it for less than 4 months, there are no stains or tears. We can provide more photos if needed. It has been used by a household with only two people who are now selling because they are due to move to a new property.
