

Chicken Coop and Run (80 GBP)

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-471923-z>

Suitable for 6 bantams or 4 larger chickens. Coop has 3 nest boxes, 2 perches, handles and door at the front for cleaning out. The run has a hinged lid for access, plastic sheeting to keep the birds dry and a side door to let the birds roam in the garden. The coop is in excellent condition having just been painted; white gloss on the inside and brown wood preserver on the outside. The run is in good condition but may need a little TLC. Dimensions Coop- Length: 120cm Width: 110cm Height: 115cm (Front), 40cm (back) Run- Length: 200cm Width: 98cm Height: 80cm This is a good quality British made ark and run and should not be confused with cheap inferior Chinese flat pack products. (Ark made by Jim Vyse Arks). The coop can be dismantled but the run can't easily so a van or trailer would be needed to collect. Please feel free to ask any questions or to view. Let me know if you only want to buy the ark without the run. This is a bargain price for a good quality.
