Toddler activity table with a selection of chutes and holes to push coloured balls through. To help toddler understand cause and effect, as each chute or hole activates a certain sound or light sequence. Child can use the blue hammer that comes with this toy or just push balls through with their hands. This toy is in good condition and perfect working order, with batteries included. There are a few scuffs however, hence the half price offer- but overall an excellent buy that will REALLY engage younger and older toddlers!
