Here is Mia, she is estimated at 4yrs old (I haven't had her since birth) and is 4'6". She is THE MOST docile and friendly snake I have ever come across and is great for all loving keepers. She has been fed on adult rats for a fair few months now and is not nearly as fussy as other ball pythons have been known to feed. Included in her sale is: Mia, a vivarium (that would probably need upgrading in the long term), a heat mat, large water bowl, plenty of bedding (hemp), unused vinyl background, 2 solo thermometers/hygrometer, another thermometer+thermostat+timer (see image), heat lamp + daylight lamp, cleaning spray, spare batteries, plant, log and other assortments, and - lastly - a large carry/feeding/storage box. Price is OVNO and only selling due pet rules in my flat and very sad to see her go.;
