Welcome to Ant Photography...

With 12 years of professional expertise in portrait, event, travel and real estate photography and more recently wedding photography, I shoot special occasions and treasured memories in a sensitive, relaxed and uncomplicated way.

My images capture the very essence of growing families from crazy kids, troublesome teens, young loves dream, proud parents and adoring grandparents.

Creativity and soul is reflected in much of my work which is often described as original and energetic. Precious moments are eternally framed and tell a beautiful story of the perfect wedding day or special anniversary.

My free 'n' easy journalistic style enables me to personalize each of my shoots to accommodate your wishes, ensuring your time in front of the lens is both fun and rewarding. I am equally comfortable taking traditional shots but experience has shown me that the most authentic, wholesome images are captured naturally.

Please visit my website to view my portfolio and prices. Special Wedding Photography Promotion available now.

I am excited to meet you and tell your unique.
