The Burton Custom Smalls Flying V snowboard only boarding a handful of times, so it good condition. Check the other listing for the Bindings. Flying V mixed camber combines rocker and camber to offer easy-riding, springloaded action. Snowboard Length (cm): 145 cm Details Rocker overall, and between and outside the feet, enhances catch-free playfulness and float through pow Subtle camber zones underneath feet focus edge control for crisp snap, added pop and power through the turns

Directional shape concentrates pop in the tail and offers plenty of overall float and control; twin flex makes riding regular or switch simple

Tip-to-tail wood core is durable and provides a forgiving flex for edge control and solid turns

Biax™ React fiberglass construction provides torsional forgiveness, board feel and edge hold, perfect for advancing to the next level

Tapered tip and tail thickness reduces swing weight and improves powder flotation

Slantwall sidewalls offer a consistent edge hold that cuts like a knife

Easy-to-maintain extruded base combines speed and durability to keep you moving fast in all types of conditions £149
