

WOODBURNING STOVE LOG BURNER MULTIFUEL TENT GREENHOUSE GARAGE W

Location **South East, East Sussex**
<https://www.freeadsz.co.uk/x-475164-z>

Our stove is the cheapest way to get warm! The stove door is made from doubled steel to safeguard against the door overheating. Where the fire comes into contact with the stove, double plate steel is used for extra safety. The upper lid can be removed to allow longer and larger logs to be burned in the stove. The diameter of the hole is 18cm (7.09 in). The removable lid also allows easy access for maintenance to be performed on the stove. The lid is made from double plate steel.

The stove is characterized by its high quality of workmanship. Special side longitudinal and transverse strengthening makes the whole structure of the stove stronger and more durable. Side protection protects from direct contact with the side wall of the stove, and the possibility of burns.

The stove has beautifully crafted handles for closing the oven door. This is to protect from burns when using the stove.

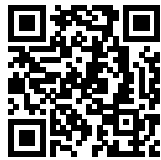

The stove is equipped with a rear exhaust with a diameter of 120mm (4.72 inch).

The exhaust outlet is equipped with a damper. This allows for easy regulation of gas flow.

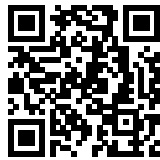

The adjustable exhaust with a diameter of 120mm (4.72 inch) adjustable gas flow (control the burn rate). The adjustable damper is protected against complete stop fumes in the combustion chamber (protects against carbon monoxide poisoning).

The removable ashtray provides a comfortable and safe solution to catch and remove ash from the stove.

The combustion chamber is fully lined with 2 cm thick, high quality fireclay bricks. The fireclay bricks

absorb the heat and allow it to dissipate gradually. The bricks also prevent fire coming into direct contact with the stove wall.

The very high quality cast-iron grate is 1cm thick (approx) and measures 18cm (7.09 in) width x 21 cm (8.27 in) deep. This guarantees long-lasting and safe operation.

Below are the dimensions of the stove:

2 bends and flu pipe can add for free but can be damaged while delivery If you have any questions, please call the following number: 07928396851 079283968...(click to reveal full phone number) or 07473232661 074732326...(click to reveal full phone number)
