I wonder if you have any bits and bobs of copper piping or anything copper coloured. It doesn't matter what width or length as he is a sculptor and his next venture is with all things copper or copper coloured. It doesn't even matter if it is discoloured or rusty as it is all going to be nailed or stapled on. All donations gratefully received. I can send photos of previous projects to show you how he is recycling old small bits of metal. Kind regards
