Hair extensions from £120 for a full head, (based on 200 stands of 0.5) more or less maybe required 6 different methods available (micro and hot fusion also including two of the newest on the market, nanos and tape). The new methods are specially suited to those with fine hair. A full head of Tapes can be fitted in approx 1hr and last 6-8 weeks, then are re fitted using the same hair, they are great for fine hair or to add colour without having chemically change the natural hair.

Dreaming of long lush locks, but don't have time to spend 4+ hours having individual stands applied.

Tape weft extensions are fast to fit, only taking around 1 hour for a full head. They are comfortable to wear as they lay flat to the head, they can be worn in up styles, even a high pony tail, without been seen, as there are no metal bonds or heat applied glues. They are long lasting and can be re applied many times. No heat, or harsh chemicals, (even for removal) they are gentle on the hair, they are damage free, and are perfect for fine, or thinning hair as they look like your natural hair. Tape hair is the latest method to hit the
