I have for sale a Panasonic 8kg Washing Machine model NV-148VA2. 1400rpm This was top of the range a few years back. I purchased this from new and have never had any problems with it.

The machine has been taken good care of and used at most once a week. You will see from the pictures that this machine is in immaculate condition.

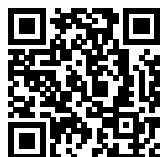

I am selling only as I am now looking at purchasing a Miele. Get yourself a bargain, you can't go wrong with this.

Due to the weight, buyer MUST collect. Any trial welcome. Includes a 3D sensor, tilted drum and dedicated 15°C wash cycle - making it one of the most efficient washing machines on the market. Other features include a 15°C wash cycle, auto power off, a 'significantly reduced operation noise', plus a larger 8kg capacity that fits more clothes into a single load. ;
