Location **London, London**

Black Rangemaster fully electric cooker. Full working order. Cleaned throughout although not professionally and well looked after. All wireracks and grill pan with handle are included. Cooks very well and quickly, knobs easy to use even for those with arthritis. Hob glows red when hot and small red light on surface indicates which is still warm. Interior light works. Selling due to new restyled kitchen but this was a great family cooker and served me very well. Two ovens and separate grill with variable heat controls. Big enough for any Christmas turkey!!

This is a collectable item only and its quite heavy so will need two strong guys to lift.

Its wrapped up in bubble wrap ready to go. Please ring me with any questions or you would like to view. 020 8668 2117 020 8668 21...(click to reveal full phone number)
