Brand new e-bike with 12 months warranty. Special end of season sale offer. Collection from our shop in Brighton or delivery at additional £25.

An electric bike is a normal bicycle that has been adapted or manufactured to incorporate the assistance of an electric motor, while keeping the usual pedals and bicycle transmission. The motor assistance can help the rider go further than they would under their own power. With an electric bike you can tackle bigger hills, or simply ride with less effort.

Assuming they comply with the regulations (as almost all reputable electric bikes sold in the UK do), they do not require vehicle tax, insurance or a licence to use, and can be used wherever a standard bicycle can go, including cycle paths. ;
