I bought this beautiful piano with the intention to learn how to play (I never really persevered and got round to it) so I would like to sell it so someone out there can get to appreciate it! After doing my research I found it to be one of the best on the market. The store I originally bought it from 'Musicroom' RRP £819 has an excellent description of its key features on the website which include:- Keys with Ebony and Ivory feel

Keyboard - Action: Tri-sensor Scaled Hammer Action Keyboard II

Keyboard - Touch Response: 3 sensitivity levels. Lesson mode and a library of 60 Tunes. Grand piano both modern and concert buttons as well as electric piano. Recording Function. Tones - Built In: 18 built-in tones: Grand Piano (Modern, Classic, Variation), Elec Piano, FM E. Piano, 60's E. Piano, Harpsichord, Vibraphone, Pipe Organ Jazz Organ, Elec Organ 1 & 2, Strings 1 & 2, Bass 1 & 2 USB port. Sound -

Source: Multi Dimensional Morphing AiR

Sound - Polyphony (maximum): 256 Headphones socket. As shown in the pictures I am throwing in 'Improve Your Sight Reading' by Paul Harris grade 1 and 2 as well as an adapter for headphones. I still have the original users guide and piano scores that came with it. Only played a handful of times so is in excellent.
