Buy your very own pet hedgehog which are VERY HARD TO FIND! She's friendly and loves to sniff everyone.. I mean meet everyone. Including: -a running wheel

-dry cat food

-a tooth brush

-food bowls

.Aveeno shampoo

-a bag of hay Note- Items on this list are used but there is enough to start off. Why dry cat food?

It is completely normal to feed this to your hedgehog. Do not feed them wet cat food. Alternately you can buy hedgehog food online.

Are they allowed shampoo?

I always use shampoo on my hedgehogs to give them skin relief. (Only use Aveeno!)

Toothbrush?!

Use this to clean their quills gently. Tutorials can be found online. What gender is the hedgehog? Female.

Can I lower the price? Yes it's negotiable. But I won't go any lower than £170 because this is the price I bought her parents for. Does she come with a cage? No she does not. I have a little plastic box I keep her in sometimes. Of course it has no lid to it. You can view it on the images. Inside it she has her hay, her cosy blanket that she sleeps in and carpet I put in as lining. You can take this for free because she is used to its scent. However I would recommend making your own DIY cage/carrier so you can pick her up in that. For any more queries, feel free to contact me. ;
