

Electric Bike almost new (425 GBP)

Location **Wales, Clwyd**
<https://www.freeadsz.co.uk/x-481913-z>

The New Euro Classic Features a powerful motor that will propel you to speeds of up to 15mph (as high as you are legally allowed in the UK) and a battery that offers a range of in excess 20km, the Euro Classic makes transportation on an electric bike a fun, affordable and practical option.

The bike can be used as a standard bike and offers all the features of a premium bike. The Euro Classic can be used simply as a traditional 'pedal' bike without any problems, however it also features two other modes:

Pedal Assist

Assist mode will kick in the power as you start pedalling and add extra power to each cycle, propelling you faster and with less effort. as you pedal the motor automatically engages. If you stop pedalling the motor stops.

Throttle Control

Fully powered will take you from stationary to cruising speed at the flick of a wrist with absolutely zero leg movement. You use the right hand twist grip throttle control to power the motor. You do not need to pedal if you do not wish to. Please note that this is not a motor cycle and you will be required to pedal as well during steep hills. Distances travelled via battery power will vary in accordance with the rider weight, battery capacity, hills, road conditions, use of built in lights, weather etc. The is a (EAPC) Electrically Assisted Pedal Cycle. You do not require a driving license, MOT, TAX or insurance to ride on public roads. You must however be over the age of 14 and in pedal assist mode. Helmet not required but

recommended. NO TAX

Weight : 15kg
 Max Speed : 15km/h
 Battery Capacity : 12Ah
 Charge Time : 2-3 hours
 Motor Power : 200Watts
 Motor Voltage : 36Volt
 Motor Type : Improved Brushless Induction Motor
 Wheel Diameter : 600mm
