I'm looking to down grade for smaller run about so am selling my hunting vehicle. As not done heavy work just used across fields so shows inside and out of outdoor use. Great motor though and always starts with no trouble as been through every mot with only small advisories which I have had most completed i.e. New break pipes. Be sad to see it go never let me down once. Mileage in photo just under 136000. Contact through email click to contact to arrange views nd test drive thanks.;
