For A Tree Surgeon In The Forfar Area That You Can Trust, Please Call Apollo Tree Services For Forfar Today Apollo Tree Services For Forfar carries out many forms of arboreal surgery and maintenance including tree felling (involving the carefully planned removal of the tree in easy to manage pieces); tree height reduction; tree canopy reduction; pollarding (removal of top growth to allow regeneration in the basic structure); thinning (removing surplus branching within the tree to allow more light to penetrate); crown cleaning (removing deadwood and competing branches to encourage tree stability and leave it's appearance less cluttered); and hedge cutting and trimming as well. Apollo Tree Services For Forfar will dissect your tree into smaller, easy to handle pieces, using lowering ropes for larger areas of timber, so as to prevent and damage to the rest of your garden and property, as well as any neighbouring.
