This Guitar is great for intermediate guitarist taking the steps away from the acoustics and stepping into the world of electric guitars. It has 2 humbucking twin coil pickups, silver hardware including a fully adjustable bridge and a creme scratchplate and pickup cases. The guitar plays very well and has a nice classic warm les paul tone. It has a very nice gloss sunburst finish over a mahogany body with a maple top. The neck is glued on as per usual on an epiphone it has a 24.75" scale length and 22 medium-jumbo frets. The fingerboard is made of rosewood. The guitar is in very good condition. The only chips are almost unnoticable on the head of the.
