The university i graduated 12 years ago is one of the best places for getting skills of any kind of sport and massage. Travelling all over the world, i had the chance to see a lot of different practices and developed my own system, which is giving me also the opportunity to use all the bio energy that every person have, but most of the time don't know how to use it. I mix a couple of methods to get the best formula for removing the pain, tiredness and to make faster the recovery of all body systems, including deep tissue, lymphatic drainage and equally treatment of the body parts from head to toe. I give also massage lessons. Find more description about my practice and additional services at my website up. I guarantee 100% proper.
