

## Reebok 16K Pump Ice Hockey Skates - size 8.5D - Professional skates (200 GBP)

## Location

## South West, Hampshire

<https://www.freeadsz.co.uk/x-483710-z>

RRP £341 - yours for £200 - used for 6 gentle skating sessions - professionally sharpened 7/16th by Everglides. Boot is too narrow for my flat feet - maybe swap for 8.5EE Grafs of same value?

Reebok's 16K hockey skate is designed for the elite level player. It features a Max Armour V quarter with titanium reinforced embedded zones for superior support and durability. The Patented Pump technology provides the ultimate in personalized pro performance and comfort. The vented lightweight carbon/glass outsole provides a rigid base to build the skate from and provides maximum energy transfer from the foot to the ice. The 16K comes with Reebok E-Pro holders and Proformance Lite stainless steel runners.

- The Pump- Provides the ultimate level in personalized Pro performance and comfort
- Quarter Package- Max Armour V with titanic reinforced composite Embedded zones provide optimum light weight structure stability and durability
- Liner- Dual zone liner with duratex grip and wicked duratex enhances durability with increased heel lock
