This car has served me well for the last 4 years however it needs a little loving. As per the pics the front left and right wings have some small dents and there is also a light scratch down the left hand door which needs touching up. These have been caused by people reversing into my car in a car park! The interior is in good condition, leather seats, electric windows, air-con, power steering and convertible roof as standard. Its a great little car but no longer needed :) £400 ono! I have receipts of all works undertaken over the past 4 years including new exhaust, suspension arms and so on. MOT still valid until 4th January 2017 ;
