

Born on the 12th of November and ready for their new homes the 7th of January 2017 at 8 weeks old, I have 2 handsome male Long Coat Chihuahua puppies looking for their new forever loving homes. They are from a litter of 5, their sister's have been reserved. One is chocolate/fawn and white (super fluffy) and the other is a slightly larger, black, tan and white tricolour puppy. Both of their temperaments are wonderful, they are loving, playful and not shy which is a trait that can be Chihuahuas prone to. No obligation viewings are welcome and you can meet both the mother and father when viewing so you can get a good idea of what your puppy will look and act like once fully grown. Both parents have delightful temperaments, they are great around people, children and other dogs. Mum can be a little shy but not excessively. Both parents have not got a single aggressive bone in their body and have never snarled or snapped. Dad is very small (1.8kg/2.8lbs) and has had success in the show ring winning 1st place for best of breed and best condition. Both parents are part of the family, dad belongs to my mother in law. These 2 perfect little lads have been raised in my family home alongside my young son and a couple of other dogs. They are handled every single day and are well accustomed to household noises (vacuum cleaner, TV, etc...) and general household life. You can be sure that your puppy has had the best start in life. They will leave with their Kennel Club paperwork, 5 weeks insurance starting from the day you take your puppy home, worming/medication records, 1x treatment of Advocate and Drontal, a puppy care guide and a puppy starter kit. They will also be microchipped, vaccinated and health checked by a vet before leaving. All puppies will be toilet trained to puppy pads and news paper by 8 weeks. They are wormed every 2 weeks up until 12 weeks of age, this is important because puppies are born with roundworm. A £200 non-refundable deposit will secure your puppy until they are ready to leave and you

are ready to take them home. You will be kept up to date with weekly photos and details of their progress. I have provided initial and ongoing support and advice as brought up by you. It is a blessing that you have you to be responsible for her, clearly for the rest of her life, if you are not sure you are ready to do this, please think about it, consider seeing one who will speak as many questions as you have. You will be able to contact me viewing on a weekly basis any questions you can contact me anytime either by phone call, text or email. Thank you for taking the time to read my.
