The Advantage you get with Global Online QLIKVIEW Course: I am interested in learning tibo. I have found some good videos in youtube but all those are only tutorials. None of the videos answer why tibo is used in organizations and how it is useful to the same. I saw some tutorials in webservices and yes we can do the same using java. I am basically from java background and have quite good experience in webservices. I saw some tutorials in tibo regarding web services and they are using soap pallets. Not only for web services I have also seen tutorials for jdbc
