I am interested in learning tibo. I have found some good videos in youtube but all those are only tutorials. None of the videos answer why tibo is used in organizations and how it is useful to them. I saw some tutorials in webservices and yes we can do the same using java. I am basically from background and have quite good experience in webservices. I saw some tutorials in tibo regarding services and they are using soap palletes. Not only for web services I have also seen tutorials
