Your small or mid-sized business can benefit from colocation services if you want to use your own servers, hardware and software for your web hosting. Not only will you have your own space in a colocation center but you also won't need to worry about power, IPs and bandwidth or the kind of content you want to host as long as it is legal. Your responsibility will be the maintenance of the equipment. If this sounds like a good option for you, then you need to know where to look for the perfect colocation service for your business. We have researched and compiled a chart that compares all major colocation service centers in the USA by monthly fee.
