

# For SALE Blue and White Staffy Bitch (300 GBP)

Location **North, Cheshire**

I'm reluctantly having to sell my 14 month bitch, Princess.  
 I've had her for 4 month.  
 She is (not solid) blue and white.  
 She isn't KC registered  
 Microchipped and wormed and flead up to date, not neutered.  
 I'm having to sell her as our other dog doesn't seem to be to keen on her and it isn't fair on either of them to keep her. (We got our other dog first, she was 8week)  
 She is iffy around other dogs, she can be fine around them but she does have a tendency to growl and bark at others, however saying hat she is better than when we got her, she just needs socialisation.  
 If she would be living with another dog, it would be best for her to meet it a few times, so she can get used to them.  
 She pulls a little while on the lead, but does walk well off it, as long as there are no other dogs around.  
 We got her from her previous owner, in September, when she had just turned a year old.  
 She is house trained and can be left alone for long periods of time.  
 Knows, sit, lie down and paw  
 She will come with a food and water bowl, lead, 2 collars and a small bag of food.  
 She won't come with a bed as they currently share one (they did have 2 but they won't sleep in separate beds)  
 Looking to sell her for around &ound
