His name is polo who I have owned as a well loved family pet since he was 9 weeks old. He is up to date with his injections and is micro chipped. Not neutered. Polo has been brought up with my 3 children one of which is a toddler and my 2 cats. He is very affectionate and loves lots of attention but will also happily just lay down and chill/sleep. Polo is also grate trained and loves to snuggle in his cage in the evening right through till the morning (so we have to drag him out of it for his final toilet lol). He loves his walks and to run freely round a field daily. He also loves his bones and loves playing fetch. This is a sad sale as I just don't have the time that he needs with a very demanding toddler. Polo will come with his crate, bed, food and leads. Thanks for
