

# Aluminium plastic composite panel

Location **Scotland, Argyll**  
<https://www.freeadsz.co.uk/x-486737-z>

Aluminium plastic composite panel has great utility in the construction industry. It has internal and external uses. Aluminum is a light but extremely strong metal. It is capable of replacing iron and steel in the construction industry. There are many advantages of using kingaluc aluminum panels. Some of them are as follows. Light in weight: Compared to metals like steel and iron, aluminum is lighter with a specific weight of 2.7 g/cm<sup>3</sup>. This can reduce the dead weight of the product. more: <http://www.kingaluc.com/> ;
