WE HAVE AN INVESTMENT WAITING FOR YOU! The prospect of closing a failing business is a harsh reality for any entrepreneur to face but for those who want to stay committed to their business, insolvency doesn't have to be the outcome. We specialize in helping small and medium businesses that are struggling with creditors or cashflow. We can fix and invest in businesses in almost all sectors. Over the last few years, we have identified numerous qualifying businesses, and by working closely with the owners, we've been able to turn them around. We build long lasting relationships with our business partners and clients to drive consistent and recurring revenue. We know that you've invested a lot of time and effort in building up your business, so we don't ever gamble on your success. We explore all alternative solutions and have an open mind on what would work best. Unlike others, we're not in the business just to make money; we empathize with your needs and demonstrate a genuine concern for you and your business, on top of that we work hard to ensure a positive outcome. We invest in non-profitable, debt-ridden companies in almost all sectors, that have a minimum of £500k turnover & turn them into debt-free, profitable businesses. Our solutions make a huge difference to struggling businesses and can save them from CVA, Administration or Liquidation. Why give up on your dream or abandon your life-long passion when you can get help? We have a no-brainer solution for small and medium-sized businesses that need turnaround investment or just want to make their company more profitable, more valuable and ready for future sale at higher multiples.
