

# HONDA HRV 1590cc 3 door Hatchback x4 wheel drive, Yellow (550 GBP)

Location **Wales, Clwyd**  
<https://www.freeadsz.co.uk/x-487016-z>

First Registered: 30th September 1992 Milage: 118,000 Colour: Yellow MOT: to October 2017 New Clutch and Battery fitted. Reason for sale: Failed piston rings on one cylinder. Although registered to 2 previous owners the vehicle has been in the ownership of the same family since new. The vehicle specification is unchanged since purchase except the fitting of a Tow Bar. All electrics are fully operational except that the Air Conditioning system has been disconnected. The vehicle has not been involved in any road or traffic accident, but has suffered the inevitable minor scrape with appropriate repair by a professional body workshop. Thus the body work is not perfect but excellent for a car of it's age. The interior is in excellent clean condition. The car is fitted with Michelin X Energy Saver tyres - probably good for in excess of 10,000 miles. The vehicle has never failed a MOT test the most recent being October 2016. The car has been regularly serviced at least twice in each year and has given trouble free motoring, being probably the best vehicle of its type that Honda has built. The present user was so confident of the vehicle's condition that a new clutch was fitted on 17th November 2016 and Battery replaced with new on 1st December 2016. All in all this would be an excellent car for an enthusiast who has the facility to carry out the.
