We are experienced and trained in a wide variety of different groundworks: Paving : Pathway and patio slab replacement, repair and rejuvenation. Block Paving : Design of block paving can be anything from a simple path to drive widening or full construction of a driveway, car park and road. Any pattern or requests can be followed out to you exact requirements. Brick work : Carried out to your desired requirements - any work undertaken. Concrete : Driveways, footings, paths, patio and oversights. Dropped kerbs : Although council permission may still need to be obtained, we will usually beat the councils own price for this work. Landscape Design and Construction : We can carry out any design or construction of your own preference, working with you on all your own personal ideas. Drainage : all types undertaken. ;
