This absolutely charming French inspired mahogany dressing table may be used either as a dressing table or perhaps a home office desk. It would also make an excellent hallway table for a period home.

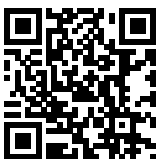

It is top quality and solidly built. It has brass handles on all drawers (fully working). Features cabriole legs, multiple storage areas (five drawers) , and ample writing/work space if used as a desk. It is 38 width, 38 inch height and 18 inch depth.

Rare and hard to find antique style piece and very elegant. It also has a lovely reddish sheen to it and polishes up really well.

It's an absolutely perfect period piece for any home office or domestic setting. From a smoke free home.

I have tried to describe it as accurately as possible but as you may expect from an aged item of furniture it has several scuffs, and scratches, but nothing major. It is bought as seen

It is for collection only by appt. We are based in Darwen, five minutes from Junction 4 turnoff on the.
