

Eminence Patriot Red White amp Blue Guitar Speaker (30 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-487496-z>

This an original Eminence Patriot Red White & Blue Speaker USA model which I bought in 2005 as a replacement for a Fender combo I had at the time.

Apart from soldering a quality speaker lead onto the terminals, it never got used, as I bought a USA Carr Rambler hand made combo and sold on my Fender combo with its original speaker. Therefore the speaker never got put in the Fender and I just kept hold of it in case I ever wanted a change &/or replacement 12" speaker, so it has just been sitting around in its box!

As you will be aware these speakers are reasonably heavy so don't want to post due to cost & bulk, so it will have to be cash on collection only. I am in Shirley part of.
