146k mileage, no mot needs a new egr valve and new rear brakes spot weld here and there, and 2 doors don't lock. Right that's the bad stuff out the way now for the good. Brand new clutch and when I say new I mean 2 miles old new, new steels for tipper floor, new floor for tipper floor which does need to be welder down but comes with it cut to fit. Tyres good condition, seat covers, alley back panels, starts and runs fine. Cylinder tipper works great no problems, body ok for the reg
